

PLEASE LEAVE INDIANA'S TELEMARKETERS "NO-CALL" LAW ALONE. I Feel:

- that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

The telephone privacy act has greatly improved our quality time at home with our children. Dinner time and homework time in the evenings is not interrupted constantly by telemarketers.

We used to receive approximately 6 calls per NIGHT!!! Now our phone rings maybe once, and it is someone that we WANT to talk to.

PLEASE, PLEASE LEAVE INDIANA'S LAW ALONE!!!!!!!
